May	129–160	November	319–350
June	161–192	December	351–382

Aanensen, C. J. M. and Ritchie, W. G.; The annual variation in the jet stream across the Greenwich meridian,337
Absalom, H. W. L.; *obituary*, 191
Account of some old barometers; A. L. Maidens, 154
Address by Professor E. H. Palmén; D. B. Shaw, 283
Address by Professor S. Tolansky; R. F. Jones, 94, *photographs between* 80, 81
Alexander, L. L.; Easterly winds and low stratus at Leuchars, 292
Almond, R.; Techniques of temperature and wind sounding with the SKUA meteorological rocket, 327, *photographs between* 334, 335
Analysis of tropical stratospheric winds by means of a band pass filter technique; Geraldine E. Edmond, 304
Annual minimum and annual maximum temperatures; L. P. Smith, 148
Annual variation in the jet stream across the Greenwich meridian; W. G. Ritchie and C. J. M. Aanensen, 337
Appointment of M. J. Bessemoulin; 127
Ashwell, I. Y.; Barometric pressures in central Iceland, 52, *photograph facing* 48
Ashwell, I. Y.; Barometric pressures in central Iceland, *reply to letter*, 252
Association of clear-air turbulence with 300 mb contour patterns; A. A. Binding, 11
Atkins, J. E.; Very low cloud at London (Heathrow) Airport during the winter half-year, 354
Atkins, N. J.; Forecasting fog clearance at Wittering, 298
Atlas of planetary solar climate, Vol IV; *publication received*, 160

Barometric pressures in central Iceland; I. Y. Ashwell, 52, *photograph facing* 48
Barometric pressures in central Iceland; *letter* from W. R. Sparks, 251, *reply* from I. Y. Ashwell, 252
Barry, R. G.; The English climate (H. H. Lamb), *review*, 158
Benfield, B. K.; *obituary*, 128
Benwell, G. R. R.; The estimation and variability of precipitable water, 319
Best, A. C.; Retirement of Sir Graham Sutton, 257, *photograph facing* 257
Binding, A. A.; Association of clear-air turbulence with 300 mb contour patterns, 11
Bird, L. G. and Goodison, C. E.; Telephone interrogation of rain-gauges, 144, *photographs between* 144, 145
Bleasdale, A.; Improvement of rain-gauge networks, 137
Bleasdale, A. and Farrar, A. B.; The processing of rainfall data by computer, 98
Boyden, C. J.; A comparison of snow predictors, 353 (1964), *corrigendum*, 96
Brame, Ben. G.; *obituary*, 128
Britten, G. P.; Atmospheric processes in the high latitudes of the southern hemisphere (P. D. Astapenko), *review*, 378
Brunt, Sir David; *obituary* by R. C. Sutcliffe, 97

Canadian Meteorological Service; new Director, 63
Carlson, P. E., Galloway, J. L. and Haering, P.C.; A note on the objective location of frontal zones, 218
Carrick, N.; Weather satellites will help Australian forecasters, 61, *photographs between* 48, 49
Chuter, I. H. and Howkins, G. A.; The effects on equivalent headwinds and flight times of errors in forecasting wind direction and wind speed, 341
Cirrus cloud associated with a jet stream over southern England on 22 June 1963; *photograph facing* 49
Climatic singularity in June 1964 in south-east England; E. N. Lawrence, 290
Colloquium on television weather forecasting; N. Ellis, 118
Comparison of snow predictors; C. J. Boyden, 353 (1964), *corrigendum*, 96
Cornford, S. G.; Probleme der Gewitterforschung. 1. Das Gewitter in heutiger Sicht (Dr. Hans Israël), *review*, 313
Cottis, J. G.; Symposium on the biological significance of climatic changes in Britain, 59
Crotch, W. J. B.; *retirement*, 282

Daking, C. W. G.; awarded I. S. O., 286
Decisions of the World Meteorological Organization's Scientific Advisory Committee, 155
Dight, F. H.; 'Windiness' in Shetland, 231
Director-General of the Meteorological Office, 289
Distribution and annual cycle of local heating rate throughout the troposphere in the northern hemisphere; G. B. Tucker, 205
Distribution of crops with respect to mean potential soil moisture deficit at the end of August; J. M. Walker, 47
Diurnal march and interdiurnal variability of the duration of sunshine at Athens; Photios P. Karapiperis, 202
Dodd, A. V.; Some aspects of the climate of south-west Asia, 38

Easterly winds and low stratus at Leuchars; L. L. Alexander, 292
Edmond, Geraldine E.; An analysis of tropical stratospheric winds by means of a band pass filter technique, 304
Effect of contaminated muslins and wicks on wet-bulb temperature readings; W. D. S. McCaffery, 225
Effects on equivalent headwinds and flight times of errors in forecasting wind direction and wind speed; G. A. Howkins and I. H. Chuter, 341
Ellis, N.; A colloquium on television weather forecasting, 118
Errors in the traditional method of computing general values of monthly and annual rainfall over large areas; R. P. Waldo Lewis and B. Golding, 109
Estimation and variability of precipitable water; G. R. R. Benwell, 319
Estimation of rainfall using radar—a critical review; T. W. Harrold, *official publication*, 317
Example of ventilation error in the dry-bulb and wet-bulb psychrometer; R. F. Zobel, 161

Farmer, S. F. G.; Results from the SKUA meteorological rocket programme, 332
Farrar, A. B. and Bleasdale, A.; The processing of rainfall data by computer, 98
Forecasting dry spells of three days or more in south-east England from May to October: a revised model; C. A. S. Lowndes, 241
Forecasting fog clearance at Gaydon, Cottesmore and Watton; T. D. D. Jennings, C. J. Macey and B. L. Giles, 301
Forecasting fog clearance at Wittering, N. J. Atkins, 298
Forecasting of shower activity in airstreams from the north-west quarter over south-east England in summertime; C. A. S. Lowndes, 264
Forsdyke, A. G.; Atlantic hurricanes (G. E. Dunn and B. I. Miller), *review*, 376
Four stages in the development and decay of a funnel cloud in Spain, *photographs between* 358, 359
Fourth session of the Commission for Aerology, Brussels, 1965; J. S. Sawyer, 372
Frankcom, C. E. N.; The measurement of sea surface temperature, *letter*, 379
Freeman, M. H.; Cloud structure and distributions over the tropical Pacific Ocean (J. S. Malkus and H. Riehl), *review*, 347
Frith, R.; Gaseous composition of the atmosphere and its analysis (B. A. Mirtov), *review*, 314
Frith, R.; The high atmosphere, 19
Frith, R.; Meteorological soundings in the upper atmosphere (W. W. Kellogg), *review*, 127
Frith, R.; The ozone symposium at Albuquerque—1964, 88
Frith, R.; The sixth International Space Science Symposium—May 1965, 302
Frith, R.; Third Assembly of the Special Committee for the International Years of the Quiet Sun, Madrid, 1965, 220
Frost, R.; Physics of the marine atmosphere (H. U. Roll), *review*, 285
Froude, G. and Simmonds, J.; Phenomenal temperature oscillation in Aden, 184

Gales in Yorkshire in February 1962; C. J. M. Aanensen, *official publication*, 96
Galloway, J. L., Carlson, P. E. and Haering, P. C.; A note on the objective location of frontal zones, 218
Galloway, W. R.; Meteorology and climatology for sixth forms and beyond, second edn. (E. S. Gates), *review*, 62
Galloway, W. R.; *obituary*, 31
Galloway, W. R.; Physics of the air (W. J. Humphreys), *review*, 63
Gameson, A. L. H. and Quaife, R. D.; The yearly distribution of rainfall intensities, 173
Garriock, W. S.; Read well and remember (Owen Webster), *review*, 348
George, J.; London Weather Centre moves to High Holborn, 187, *photographs between* 176, 177
Giles, B. L., Jennings, T. D. D. and Macey, C. J.; Forecasting fog clearance at Gaydon, Cottesmore and Wittering, 301
Gloyne, R. W. and Kyles, M. E.; Some empirical relationships concerning the intensity of direct solar radiation, 361
Golding, B. and Waldo Lewis, R. P.; Errors in the traditional method of computing general values of monthly and annual rainfall over large areas, 109
Goodison, C. E. and Bird, L.G.; Telephone interrogation of rain-gauges, 144, *photographs between* 144, 145
Graham, R.; *obituary*, 128
Grant, D. R.; Convective motions in a free atmosphere (N. I. Vul'fson), *review*, 254
Grant, D. R.; Waves in an inversion layer, 34, *corrigendum*, 287
Gray, A. and Stewart, W. J.; Orographic effects at Acklington, 8
Green, F. H. W.; The incidence of low relative humidity in the British Isles, 81, *photograph facing* 80
Green, F. H. W.; A new record of low humidity, *letter*, 159
Groves (L. G.) Memorial Prizes and Awards, 30, *photographs between* 16, 17

Haering, P. C., Carlson, P. E. and Galloway, J. L.; A note on the objective location of frontal zones, 218
Halo display at Bracknell, Berkshire, on 11 May 1965; R. K. Pilsbury, 315, *photograph facing* 316
Heastie, H.; Climatology—an introduction (J. Bucknell), *review*, 191
Heavy snowfall at Bracknell on the night of 15–16 March 1964; *photograph facing* 17
Heavy thunderstorm with hail at Kuching (Sarawak); A. Stemmler and P. M. Stephenson, 236
Heffer, D. J.; A test of Kennington's method of forecasting the time of clearance of radiation fog, 259

Henley, H. D.; awarded B.E.M., 64
Henson, A. L.; awarded Imperial Service Medal, 31
High atmosphere; R. Frith, 19
Hoidale, G. B.; Meteorological conditions allowing a rare observation of 24-micron solar radiation near sea level, 77
Hong Kong's Royal Observatory; *photograph between* 144, 145
Houghton, D. M.; Weatherwise, the technique of weather study (N. L. Peter), *review*, 62
Howkins, G. A. and Chuter, I. H.; The effects on equivalent headwinds and flight times of errors in forecasting wind direction and wind speed, 341
Hurst, G. W.; Services to the agricultural community, 121

Improvement of rain-gauge networks; A. Bleasdale, 137
Incidence of low relative humidity in the British Isles; F. H. W. Green, 81, *photographs facing* 80
Index of comfort for Gan; C. N. McLeod, 166
India Meteorological Department, 374
Installing the weather radar aerial at Bracknell; *photograph between* 240, 241
Interannual variability of monthly mean air temperatures over the northern hemisphere; J. M. Craddock, *official publication*, 32
Irish Meteorological Service; new Director, 63
Italian Meteorological Service, 127

Jacobs, L.; The Leningrad Radiation Symposium, 1964, 308
Jacobs, L.; Rayonnement solaire et échanges radiatifs naturels (Ch. Perrin de Brichambaut), *review*, 25
James, D. G. and Pothecary, I. J. W.; Some aspects of satellite meteorology, 193, *photographs between* 208, 209
Jefferson, G. J.; Unusual convection cloud, 23, *photograph facing* 16
Jennings, T. D. D., Macey, C. J. and Giles, B. L.; Forecasting fog clearance at Gaydon, Cottesmore and Watton, 301
Jones, R. F.; Address by Professor S. Tolansky, 94, *photographs between* 80, 81
Jones, R. F.; The flight of thunderbolts (Sir Basil Schonland), *review*, 256

Karapiperis, Photios P.; The diurnal march and interdiurnal variability of the duration of sunshine at Athens, 202
Key, M. T. H.; A weekly recording anemometer, 113, *photographs between* 112, 113
Kirk, T. H.; A parameter for the objective locations of frontal zones, 351
Kirk, T. H.; A useful synoptic representation of moisture, 24
Knighting, E.; General relativity and cosmology (G. C. McVittie), *review*, 374
Kyles, M. E. and Gloyne, R. W.; Some empirical relationships concerning the intensity of direct solar radiation, 361

Latter, J. H.; Krakatoa (Rupert Furneaux), *review*, 252
Lawrence, E. N.; A climatic singularity in June 1964 in south-east England, 290
Lawrence, E. N.; Heat transfer in the soil (A. F. Chudnovskii), *review*, 189
Leningrad Radiation Symposium, 1964; L. Jacobs, 308
Lenticular lee-wave cloud at Gibraltar; *photograph facing* 375
London Weather Centre moves to High Holborn; J. George, 187, *photographs between* 176, 177
Lowndes, C. A. S.; Forecasting dry spells of three days or more in south-east England from May to October, 241
Lowndes, C. A. S.; The forecasting of shower activity in airstreams from the north-west quarter over south-east England in summertime, 264

Macey, C. J., Jennings, T. D. D. and Giles, B. L.; Forecasting fog clearance at Gaydon, Cottesmore and Wittering, 301
McCaffery, W. D. S.; The effect of contaminated muslins and wicks on wet-bulb temperature readings, 225
McGain, R. E. S.; A note on equivalent tailwinds on the great-circle route Prestwick to Montreal, 69
McLeod, C. N.; An index of comfort for Gan, 166
McLeod, C. N. and Stephenson, P. M.; Note on the errors involved in computing mean comfort indices from mean values of dry-bulb and wet-bulb temperatures and wind speed, 171
Maidens, A. L.; An account of some old barometers, 154
Maidens, A. L.; New Meteorological Office rain-gauges, 142
Maidens, A. L.; New Meteorological Office wind-finding radar, 95, *photograph facing* 81
Maidens, A. L.; A standard heater for recording rain-gauges, 280
Maidens, A. L.; 202 Meteorological Reconnaissance Squadron, *letter*, 63
Meade, P. J.; Atmospheric Pollution: its origins and prevention, 3rd revised edition (A. R. Meetham, D. W. Bottom and S. Cayton), *review*, 375
Mean streamlines and isotachs at standard pressure levels over the Indian and west Pacific Oceans and adjacent land areas; R. Frost and P. M. Stephenson, *official publication*, 160
Measurement of sea surface temperature; *letter* from C. E. N. Frankcom, 379
Meteorological conditions allowing a rare observation of 24-micron solar radiation near sea level; G. B. Hoidale, 77
METEOROLOGICAL OFFICE DISCUSSIONS
Atmospheric pollution; 116
Hydrological forecasting; 219
Operational numerical forecasting; 156
Work of the Central Forecasting Office; 187
Meteorological Office Headquarters at Bracknell; *photograph between* 240, 241

Meteorology at the 1965 World Gliding Championships; C. E. Wallington, 281, *photograph facing* 287
Meteorology at the University of Reading; R. C. Sutcliffe, 371
Miles, M. K. and Murray, R.; Simple measures of the raininess of a month, 1
Murgatroyd, R. J.; Atmospheric radiation, Volume I, Theoretical basis (R. M. Goody), *review*, 222
Murray, R. and Miles, M. K.; Simple measures of the raininess of a month, 1

New criteria concerning fine spells in south-east England during the period May to October; R. A. S. Ratcliffe, 129
New Meteorological Office rain-gauges; A. L. Maidens, 142
New Meteorological Office wind-finding radar; A. L. Maidens, 95, *photograph facing* 81
New record of low humidity; F. H. W. Green, *letter*, 159
Noctilucent clouds in 1964; J. Paton, 180, *photographs between* 176, 177
Note on the errors involved in computing mean comfort indices from mean values of dry-bulb and wet-bulb temperatures and wind speed; P. M. Stephenson and C. N. McLeod, 171
Note on equivalent tailwinds on the great-circle route Prestwick to Montreal; R. E. S. McGain, 69
Note on the objective location of frontal zones; P. E. Carlson, J. L. Galloway and P. C. Haering, 218

Oddie, B. C. V.; awarded C. B. E., 286
Orographic effects at Acklington; A. Gray and W. J. Stewart, 8
Ozone symposium at Albuquerque—1964; R. Frith, 88

Parameter for the objective location of frontal zones; T. H. Kirk, 351
Parsons, F. J.; awarded M. B. E., 286
Pasquill, F.; The mechanics of aerosols (N. A. Fuchs), *review*, 92
Paton, J.; Noctilucent clouds in 1964, 180, *photographs between* 176, 177
Pettersen, S.; awarded I. M. O. Prize, 316
Phenomenal temperature oscillation in Aden; G. Froude and J. Simmonds, 184
Pilsbury, R. K.; A colour guide to clouds (R. Scorer and H. Wexler), *review*, 157
Pilsbury, R. K.; Halo display at Bracknell, Berkshire, on 11 May 1965, 315, *photograph facing* 316
Pothecary, I. J. W. and James, D. G.; Some aspects of satellite meteorology, 193, *photographs between* 208, 209
Processing of rainfall data by computer; A. Bleasdale and A. B. Farrar, 98

Quaife, R. D. and Gameson, A. L. H.; The yearly distribution of rainfall intensities, 173

Ratcliffe, R. A. S.; New criteria concerning fine spells in south-east England during the period May to October, 129
Reid, J. W.; *obituary*, 96
Reorganization of Assistant Directorates; O. G. Sutton, 33
Results from the SKUA meteorological rocket programme; S. F. G. Farmer, 332
Retirement of M. Andre Viaut; O. G. Sutton, 126
Retirement of Dr. R. C. Sutcliffe; O. G. Sutton, 258
Retirement of Sir Graham Sutton; A. C. Best, 257, *photograph facing* 257
Retirement presentation to Sir Graham Sutton; 374, *photograph facing* 374

REVIEWS
Allegemeine Klimageographie (J. Blüthgen); *review* by E. M. Yates, 314
Atlantic hurricanes (G. E. Dunn and B. I. Miller); *review* by A. G. Forsdyke, 376
Atmospheric pollution: its origins and prevention, 3rd revised edition (A. R. Meetham, D. W. Bottom and S. Cayton); *review* by P. J. Meade, 375
Atmospheric processes in the high latitudes of the southern hemisphere (P. D. Astapenko); *review* by G. P. Britten, 378
Atmospheric radiation, Volume I, Theoretical basis (R. M. Goody); *review* by R. J. Murgatroyd, 222
Climatology—an introduction (J. Bucknell); *review* by H. Heastie, 191
Cloud structure and distributions over the tropical Pacific Ocean (J. S. Malkus and H. Riehl); *review* by M. H. Freeman, 347
Colour guide to clouds (R. Scorer and H. Wexler); *review* by R. K. Pilsbury, 157
Convective motions in a free atmosphere (N. I. Vul'fson); *review* by D. R. Grant, 254
Descriptive physical oceanography (G. L. Pickard); *review* by G. A. Tunnell, 28
English climate (H. H. Lamb); *review* by R. G. Barry, 158
Flight of thunderbolts (Sir Basil Schonland); *review* by R. F. Jones, 256
Gaseous composition of the atmosphere and its analysis (B. A. Mirtov); *review* by R. Frith, 314
General relativity and cosmology (G. C. McVittie); *review* by E. Knighting, 374
Heat transfer in the soil (A. F. Chudnovskii); *review* by E. N. Lawrence, 189
Humidity and moisture: Vol. 1, Principles and methods of measuring humidity in gases (ed. by R. E. Ruskin); *review* by W. R. Sparks, 377
Krakatoa (Rupert Furneaux); *review* by J. H. Latter, 252
Mechanics of aerosols (N. A. Fuchs); *review* by F. Pasquill, 92
Metorological soundings in the upper atmosphere (W. W. Kellogg); *review* by R. Frith, 127

Meteorology and climatology for sixth forms and beyond, second edn. (E. S. Gates); *review* by W. R. Galloway, 62
Oceanic observations of the Pacific: 1951 and 1956 (Scripps Institute of Oceanography of the University of California); *review* by G. A. Tunnell, 27
Physics of the air (W. J. Humphreys); *review* by W. R. Galloway, 63
Physics of the marine atmosphere (H. U. Roll); *review* by R. Frost, 285
Probleme der Gewitterforschung. 1—Das Gewitter in heutiger Sicht. (Dr. Hans Israël); *review* by S. G. Cornford, 313
Problems in Palaeoclimatology (ed. by A. E. N. Nairn); *review* by R. G. West, 255
Rayonnement solaire et échanges radiatifs naturels (Ch. Perrin de Brichambaut); *review* by L. Jacobs, 25
Read well and remember (Owen Webster); *review* by W. S. Garriock, 348
Structure of atmospheric turbulence (J. L. Lumley and H. A. Panofsky); *review* by F. B. Smith, 93
Weatherwise, the technique of weather study (N. L. Peter); *review* by D. M. Houghton, 62

Ritchie, W. G. and Aanensen, C. J. M.; The annual variation in the jet stream across the Greenwich meridian, 337
Robinson, G. D.; World Conference on Radio Meteorology incorporating the 11th Weather Radar Conference, Boulder, Colorado, 1964, 114
Royal Netherlands Meteorological Institute, 374

Sawyer, J. S.; The fourth session of the Commission for Aerology, Brussels, 1965, 372
Sawyer, J. S.; Symposium on meteorological data-processing, Brussels, 1965, 346
Secretary, Meteorological Office; 282
Services to the agricultural community; G. W. Hurst, 121
